WORK EXPERIENCE

Clever Programmer

Oct 2020 — Present

Django Full Stack Web Developer

I created following these 3 webs apps:

• **Movie App:**

Description

Movie app allows the user to add Movie, give ratings and description of movie. One can add movie, update movie and delete movie. The C.R.U.D functionality is used to built this app. The Technologies used are Django, GitHub, Git, heroku, python, Html and CSS.

Link to my project : <https://app-movie-project.herokuapp.com/>

• **Portfolio :**

Description

I have used the HTML, CSS, JavaScript and Bootstrap for front-end . I have used Django-Baton for back-end. I have linked all the projects, CV and all the basic information to it. I have used SendGrid for Contact. It's Single page portfolio and user friendly.

• **Online Course Website:**

Description

In order to master and practice my front-end skills , i tried making clone of cleverprogrammer.com. This project built lot of confidence in me . I was pretty confident about my back-end skill but after this i am proud of my front-end skills also.

EDUCATION

B.Tech Computer Science and Engineering

2017 — 2021

Uttarkhand Technical University

Django Full Stack Developer

Oct 2020 — Present

Clever Programmer

PROJECT WORK

A small number of my projects are listed here but far more can be seen on myGithub account.

Movie Web App

- **Project Aims** : Create a CRUD enabled web app to store and retrieve links to movies.
- **Technologies used** : Django, HTML, CSS, JavaScript, Python, Bootstrap.
- **Accomplishments** : For this project I created an appealing interface using Bootstrap and I created the backend with CRUD functionality.

Twitter Clone

- **Project Aims** : It has same functionality as Twitter. It has feature to Sign Up, Login, Tweet, follow, like and comment.
- **Technologies used** : Django, HTML, CSS, JavaScript, Python, Bootstrap.
- **Accomplishments** : For this project I created an appealing interface using Bootstrap and I created the backend with Django.

Real Estate Web App

- **Project Aims** : This Web app has functionality to select property, book , buy and have a look at property. Customer can directly deal with realtor and buy property.
- **Technologies used** : Django, HTML, CSS, JavaScript, Python, Bootstrap.
- **Accomplishments** : For this project I created an appealing interface using Bootstrap and made responsive design. I have used Django and PostgreSQL for back-end.

Online Course Website

- **Project Aims** : This Website is clone ofcleverprogrammer.com.
- **Technologies used** : Django, HTML, CSS,Python, Bootstrap.
- **Accomplishments** : For this project I created an appealing interface using Bootstrap and I created the backend with Django.

Portfolio

- **Project Aims** : I have created this portfolio to present my work and project in most creative way. I has all attached links to my profiles , project links and GitHub links also.
- **Technologies used** : Django, Django-Baton, HTML, CSS, JavaScript, Python, Bootstrap..

INTERESTS

- My Passion is for building and shipping software.
- I love to teach mathematics and programming to people.
- I love reading Fictional novels.
- After work, i love to do painting which makes me fell relaxed.
- I want to learn different languages, right now i am learning turkish.
